

AMPHIBIOUS WARSHIP SPENDING BY STATE: 2016-2020

752 companies in 43 states and over 240 Congressional Districts nationwide provide parts worth over \$1.83 billion for the construction of amphibious warships.

These suppliers represent skilled labor and economic security for local communities and families. Stability in the amphibious warship construction program is critical to our national security, as well as the nation's defense industrial base.
